***Delivering high-impact results and candidates that are driven to succeed***

*"After my 10 year career as a major league baseball player, I knew I wanted to enter the business world. What I was unclear about was where do I start? After meeting with Donn on several occasions he provided me with a game plan and the guidance I needed to pursue the sales career I was looking for. The marketplace data and resume preparation he supplied were invaluable and played an integral part in me landing a rewarding sales position. He educated me on the inner workings of the corporate environment which really added to my confidence level during the interview process."*
